

K-LOVE radio is wonderful (we hear this on 106.7 in our area). It provides wholesome values and is encouraging all day, everyday. This is the only station that my family listens to.

If K-LOVE were to be taken off air in our community, many people would be left with no alternative stations for this family friendly programming.

K-LOVE serves the public by providing a "safe" place for all ages of the family to listen to music and up-lifting stories. It also provides brief news updates to keep you informed of world events throughout the day.
